

# Off-Roading Isn't Off Limits

Fans of off-roading love the desert. The open spaces give them the freedom to use their vehicles the way they were built to be used. Members are encouraged to bring their off-road vehicles when they visit Silver Saddle Ranch & Club. We know how much they can increase your enjoyment of your stay here.

We would like to remind you that there are rules governing the use of off-road vehicles in and around the Ranch and California City. There is a designated area near the California City Police Department that is off-limits for off-roading, and Silver Saddle has a five-mile radius that is identified as a "quiet" area, where off-road vehicles are prohibited.

There is lots of beautiful desert to enjoy near Silver Saddle Ranch & Club. Come on out, bring your off-road vehicles, and have a great time!
