

# Rooms for Improvement

*“Please Pardon our Progress”*

In our ongoing quest to make Silver Ranch & Club the best it can be, we have now turned our sights to the guest rooms. From bungalows to bunkhouses, a dedicated task force has just completed a thorough analysis of all the rooms. The task force lent a critical eye to everything from floor to ceiling. Beds, bathrooms, closets, appliances and appointments—all were examined to determine whether they met our standards or not.

Their detailed evaluation has now become our blueprint for improvement. And we're excited about the plans for beautifully remodeled rooms that will sport the great style and supreme comfort our members deserve. All the floors will be redone with new wood flooring. There will be new fixtures and furnishings in every room and suite. These will be rooms our members are proud to show to friends and family when they introduce them to the benefits of Silver Saddle Ranch & Club membership.

The room renovations began in October. We will focus on one wing at a time and plan to have all rooms in beautiful condition by the end of January. Join us in watching our vision take shape.
