

## Miniature Golf, Anyone?

Soon you'll be able to enjoy a family favorite at the Ranch - miniature golf! A full 18-hole miniature golf course is currently under construction at the Ranch and it promises to be a standout. The course will feature a mining theme complete with a water wheel, a gold mining hole and more. We have contracted with Castle Golf and the installation began in December.

Located near the driving range on about a 1/2-acre, the golf course should be completed by late February.
