

New Flat Screens Adorn Guestrooms

Everything's bigger at the Ranch and now the TVs are no exception! We've upgraded from 19" sets to our new 27" Sony WEGA flat screen televisions. Enjoy watching HBO, The Family Channel, CNN, Bloomberg, and many other channels on these new sets which offer sharper edges and more detail. We are also currently looking to expand our channel lineup to offer more choices and possibly some International programming.

So after enjoying your dinner at the Desert Willow, or listening to the band play in the Saloon, why not pop back to your room for a relaxing bit of TV?
